Using narratives and storytelling  
to communicate science ... - A  
filter bubble is a state of  
intellectual isolation that can  
result from personalized searches  
when a website algorithm  
selectively guesses what  
information a user would like to  
see based on information about  
the user, such as location, past  
click-behavior and search history.

Power and the News Media -  
Teun A. van Dijk - Mass Media  
and Narratives. The mass media  
is especially relevant when  
considering the communication of  
science because it represents the  
source from which nonexpert  
audiences get most of its science  
information. Sat, 19 May 2018
