A Java class file is usually produced by a Java compiler from Java programming language source files (.java files) containing Java classes (alternatively, other JVM languages can also be used to create class files). Tue, 15 May 2018 12:55:00 GMT Java class file - Wikipedia - Shades of black are colors that differ only slightly from pure black. These colors have a low lightness. From photometric point of view, a color

which differs slightly from black always has low relative luminance. Variations of black include what are commonly termed off-black colors, which may be considered part of a neutral color scheme, usually in interior design as a part of a background for ...
